SUMMARY

Motivated Full-Stack Developer with strong foundations in **Java, web development, and database management**. Skilled in building scalable applications with clean UI and efficient backend logic. Experienced in developing AI-based and real-time systems using modern tools and technologies.

TECHNICAL SKILLS

Languages: Java, JavaScript

Frontend: Node JS, Tailwind CSS, HTML, CSS

Databases: MySQL

Tools & Deployment: Git, GitHub, Postman

PROJECTS

DishFlow – Cable Operator Management System

React Native, Firebase, OneSignal, Tailwind CSS

- Built a full-stack mobile application for managing cable operator services, including customer registration, payments, and subscriptions.
- Implemented real-time database operations using Firebase Firestore for managing customers, payments, and support tickets.
- Integrated OneSignal push notifications for instant communication between admin and customers.
- Designed role-based applications (Admin & Customer) with structured UI and smooth navigation.

AI-Based Career Guidance System

HTML, CSS, Java, SQL, Postman

- Developed a web-based application that suggests suitable career paths based on user skills and interests.
- Implemented backend logic using Java to analyze user input and map it with career options stored in an SQL database.
- Designed a responsive frontend using HTML and CSS for smooth user interaction
- Postman to test and validate API endpoints (GET/POST) ensuring reliable data handling.

EDUCATION

Madanapalle Institute of Technology and Science

Master of Computer Applications, CGPA: 8.0

2025 – Present

Mother Theresa Degree College

Bachelor of Computer Applications, CGPA: 8.2

2022 – 2025

Sri Vivekananda Junior College

Intermediate (MEC), Percentage: 65.8%

2020 – 2022

Sri Viswasanthi Educational Institutions, Vijayawada

Secondary Education(CBSE), Percentage: 84%

2019 – 2020

CERTIFICATIONS

Tap Academy – Full Stack Web Development

IBM – Introduction to Data Science (edX)
